

Dissemination Meeting - JTF

The Japanese Trust Fund (JTF) project has finally come to the end by making a meaningful impact in the communities. The project entitled “Enhancing availability and Women’s Access to Integrated SRH-HIV services in earthquake affected districts of Nepal” was implemented from October 2019 to September 2021 in three districts; Kavre, Kathmandu and Makwanpur .

The dissemination program was formally started by Project Coordinator Ms. Narayani Tripathi- by welcoming all the participants. The Program was chaired by Administrator of FPAN, Dr. Naresh Pratap KC. Key speakers for the program were Program Director, Project Coordinator, OLE manager, Branch Managers & Peer Educators, from all operational districts and consultants Dr. Jhabindra Bhandari & Mr. Prabhu Poudel.

Figure 1: Opening of the session by Ms. Narayani Tripathi

Program Director Mr. Subhash Chandra Shrestha gave a brief background of the project from designing phase to implementation and close out. Branch managers from operational districts shared the key achievements and learnings from this project along with the challenges. Dr Jhabindra was one of the most excited people among the participants to see the progress made by the project as he was involved during the mid-term assessment and at that time the project had made only 40% achievement due to strict lockdown.

Figure 2: Mr. Subhash Chandra Shrestha briefing the project background and objectives of the meeting

Key achievements of JTF project were successful completion of all the targeted activities with reaching the achievements by double of its targets on service delivery, engagement of PE and RHFVs as a model, PE capacity development through the trainings, conduction of trainings in different slots especially on MISP, STI case management and MNCH to service providers. Project has been successful to enhance the capacity building of service providers, RHFV, & PEs. Different IEC/BCC materials were developed, and mass media mobilization was done during the project period. Although the project was implemented in COVID-19 situation, it was able to coordinate with major stakeholders for achieving its target and leaving its impact behind.

Table: Statistical Figure of Target vs. Achievements

Statistical Figure of Project achievement					
S.N	Project Modality	Interventions /Activities	Indicator	Target	Achievements (till Aug)
1	Service Delivery	Doctor based Mobile camp	#no of camp	50	53
			#no of services	45,000	59,883
			#no of Client	7,500	6,966
		Outreach Clinic run by Staff Nurse	#no of outreach clinic	225	268
			#no of services	23,625	90,371
			#no of Client	7500	11,710
		Peer Educator &RHFV based	# no of SRH services	23,760	1,23,391
			#no of client	17,280	52,449
#no of community sessions	720		881		
	#no of community people reached by SRH sessions	10,800	6,839		
2	Capacity Building	Capacity Building of Service providers (Basic and Refresher)	# of service provider Trained on IPES based SRH-MNCH	36	40
			# of service provider trained on MISP	36	69
			# of service provider trained on STI Case Management	36	38
			# of PE trained on SRH-MNCH	90	90
			# of RHFV Trained on SRH-MNCH	90	90
3	Media Mobilization	Media Mobilization	Broadcasting of SRH messages through Radio (throughout the year)	Throughout the project period	32 episodes (throughout the project period)
			Scrolling of SRH messages in national television	Throughout the project period	Reaching more than 10, 500 people
4	IEC/BCC Materials Development and Reprinting	IEC/BCC Material reprinting	Development of Peer Educator Handbook	Developed PE Handbook	500 pcs of PE handbook has been developed and distributed
			Reprinting of the STI flowchart	Reprinted	500Pcs
			Reprinting of Immunization schedule	Reprinted	200Pcs
			IEC materials reflecting SRH-MNCH Services delivery on Humanitarian setting	Development , Printing and distribution	500 Pcs printed and distributed
5	Medical logistics	Procurement of Dignity Kit	Dignity kit for disaster affected people	80 Pcs	80 Pcs of dignity kit was distributed to disaster affected people at Melamchi

Navaraj Guragain, Sangita Giri & Sabina Oli, Peer Educators for JTF project shared their experiences on how their capacity was developed and they were able to make changes in the community level regarding sexual and reproductive health education starting from their own family members. Moreover, the challenges during the initial phase and how the community people looked after them, their struggles for making the changes on the SRH education were also shared.

The project has been able to achieve all of its targets. It seemed that the indicators were doubly achieved even in the situation of COVID-19. Dr. Naresh Pratap KC in his closing remarks thanked all of the project team and how he was amazed to know about the success stories of PEs and further shared the idea that parent and adolescent talk on SRH issues could be maintained via PEs. In addition he was pleased to see the achievements of the JTF project and thanked all the project team for successful completion of the project.
